

## Santa Ana-Delhi Channel:

### Inspection of County Flood Control Property for Future Improvements

OC Public Works staff and contractors will be performing geotechnical investigations at locations along the Santa Ana-Delhi Channel in the area shown below. The purpose is to investigate soil conditions along the channel in preparation for a future channel improvement project.

#### WHERE

 Future channel improvement project area

Geotechnical investigations will occur at several locations along the County maintenance road within this area, including near the Bayview Trail pedestrian bridge.

#### WHAT

Project personnel and small equipment will be present along the channel area. A drill rig will be used to collect soil samples at various locations within the future project area.

**NOTE:** Public access across the Bayview Trail pedestrian bridge will remain open.

This activity is in preparation for a future project to improve the Santa Ana-Delhi Channel to allow the continued flow of water through the channel.

#### WHEN

**December 27, 2021—January 7, 2022** 8 a.m.—4 p.m.

Schedule may be adjusted due to weather delays.
