Project Benefits

- Dedicated Off-Street Path
- Closes Gap in Existing Network
- Increases Mobility Options
- Improves Access to Jobs, Parks, and Schools

About the Project

- 2.7 mile new bikeway along the Coyote Creek Channel closing the gap between the Coyote Creek Channel in Cerritos to La Mirada Boulevard in Buena Park.
- Segment O has grade separated crossings at Valley View Avenue and Artesia Boulevard; Segment P has grade separated crossings at Firestone Boulevard, I-5 and the rail tracks; and Segment Q has grade separated crossings at the both rail tracks and Stage Road.
- Walking and biking connection to four parks and three schools within 1/2 mile of the bikeway.
- Completes a critical missing segment of the 66-mile OC Loop connecting the foothills to the beach.
