

MAINTENANCE NOTIFICATION

OC Public Works

Flood Control Channel Rehabilitation in Your Area Carbon Creek Channel Replacement

WHAT

Construction crews will begin maintenance within the flood control channel, to maintain effective operation of the channel, which minimizes the risk of flooding in your community.

Maintenance activities will include removal and replacement of the concrete lining within the channel at various locations within the project area.

Additional work may include the removal and replacement of the curb ramp and sidewalk at the channel entrance resulting in temporary pedestrian closure and detour.

- Partial lane closures may be required when importing and exporting materials.
- Traffic control measures, signage, and flag personnel will be present.
- Residents near the channel may experience a temporary increase in noise during project activities.

Your safety is our top priority.

Never enter a flood control channel, as they can be dangerous and public access is restricted. Please stay out of the project area and observe all project safety signs, barriers and personnel.

WHEN

Anticipated Construction Duration

May 19 - October 10, 2025

Working Days and Hours

Monday - Friday, 7:00 a.m. - 5:00 p.m.

The construction schedule is tentative and subject to change due to weather and other factors.
