OC Public Works APPRENTICESHIP PROGRAM

OC Public Works offers 6-12 month **paid, trade-focused apprenticeships** that give undergraduate (freshmen—juniors) and first-year graduate students the opportunity to work alongside experienced engineering professionals in a real-world setting.

Applicants are requested to choose one of OCPW's 10 service areas for their assignment. The State of the Department booklet (ocpublicworks.com/building-excellence) is a great resource to learn more about each service area.

For consideration, email your preferred service area(s), a current resume and most recent unofficial transcript to:

APPRENTICESHIPPROGRAM@OCPW.OCGOV.COM
